

Experience North Norway... The greatest show on earth.

Guided trips to view the Northern Lights on our new purpose built Catamaran.

Arnoy in Norway's far north is one of the world's best locations to view the Northern Lights. It's a totally natural phenomenon. This location is arguably the finest place in the world to view the Aurora and is certainly the most stunning sight nature has to offer, weather permitting. We are one of the few companies to actually have filmed it with a broadcast TV camera, with the Aurora shown in real time (see our free DVD). Great photographic opportunities.

Other Activities:

- **Photography;** year round photographic opportunities.
- **Bird Watching;** Sea Eagles and ptarmigan in winter.
- **Snow Shoe Walking;** gentle to energetic walks in the countryside around Lauksletta House.
- **Whale Watching;** Springer whales are year round.
- **Sea Fishing;** experience world class sea fishing. Elizabeth at Lauksletta House will cook your catch.
